

SalesLife Retail Technology Solutions

www.saleslife.com

We are hiring:

Job Title: .NET C# Software Developer

Company: SalesLife

Location: Nairobi, Kenya.

Position Type: Full-time

About SalesLife:

At SalesLife, we're dedicated to revolutionizing retail business management through cutting-edge technology solutions. Our vision is to empower retailers and businesses by delivering retail management technology solutions that drive growth, optimize operations, and enhance customer experiences. We offer a comprehensive suite of solutions that include an integrated ERP system, versatile POS system, robust inventory management tools, business intelligence analytics, and seamless e-commerce integration. Our solutions are tailored to meet the unique needs of each retail business, from small boutiques to multi-location enterprises.

Job Description:

SalesLife is seeking a highly motivated and skilled .NET C# Software Developer to join our dynamic team. As a .NET C# Software Developer, you will play a crucial role in designing, developing, and maintaining software applications that form the backbone of our innovative retail management technology solutions.

Key Responsibilities:

1. **Software Development:** Design, develop, test, and maintain software applications using the .NET framework and C# programming language.

2. **Collaboration:** Work closely with cross-functional teams, including software engineers, product managers, and quality assurance, to ensure the successful development and deployment of software solutions.
3. **Solution Enhancement:** Contribute to the ongoing enhancement and optimization of our retail management technology solutions to meet evolving business and industry needs.
4. **Problem Solving:** Identify and resolve software defects, performance issues, and other technical challenges in a timely and efficient manner.
5. **Coding Standards:** Adhere to best coding practices and maintain high-quality, maintainable code.
6. **Documentation:** Create and maintain detailed technical documentation for software components and features.
7. **Continuous Learning:** Stay up-to-date with the latest technologies, frameworks, and industry trends to ensure our software solutions remain innovative and competitive.

Qualifications:

1. Bachelor's degree in Computer Science, Software Engineering, or a related field (or equivalent work experience).
2. Proven experience in software development using the .NET framework and C#.
3. Familiarity with web application development, database management, and software design principles.
4. Strong problem-solving skills and attention to detail.
5. Excellent teamwork and communication skills to collaborate effectively with cross-functional teams.
6. Knowledge of software development tools and version control systems.
7. A passion for innovation and a commitment to delivering high-quality software solutions.
8. Retail industry experience is a plus but not required.

Why Work at SalesLife:

Innovative Environment: Join a team that thrives on creativity and innovation, where your ideas can make a real impact.

Career Growth: SalesLife values professional development and provides opportunities for career advancement.

Work-Life Balance: We understand the importance of work-life balance and offer flexible schedules.

Competitive Compensation: We offer a competitive salary and benefits package.

Team Collaboration: Be part of a diverse and talented team that fosters a collaborative and supportive work environment.

If you are a passionate .NET C# Software Developer who is excited about shaping the future of retail management technology, we would love to hear from you. Apply today and join us in redefining business management through innovative technology at SalesLife.

Application Process:
